

I am writing to complain about an illegal move on the part of Sinclair Broadcasting to force their stations to air an anti-Kerry documentary days before the election. How is it that this huge conglomerate gets to wield this kind of partisan power when they use the airwaves for free, at the pleasure of The People? It is wrong, and I believe illegal, to have such blatant partisan programming without also airing something equal about the other candidate.

I think there is something seriously wrong with our communications system if this sort of practice is allowed to happen. Something needs to be done to stop this right now before it unfairly jeopardizes the current Presidential Election, and so that future elections can not be unfairly influenced in such a manner.

Forgive me for saying so, but I feel the FCC needs to do a better job of authorizing who gets a broadcast license and who gets one renewed. Someone needs to be safeguarding the public interest when it comes to broadcasting and the use of our public airwaves, otherwise we eventually become what...Iraq? Isn't this one of the jobs of the FCC? Thank you.
